

Open web browser (Chrome if possible) on your computer, phone or tablet and visit <https://advanced.vmixcall.com>

Enter your name and given password. Click on "JOIN CALL"

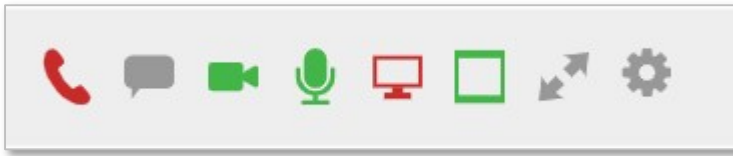

The image shows the vMix CALL login interface. At the top left is the vMix CALL logo, which consists of a 3x3 grid of colored squares (blue, green, orange) followed by the text "vMix CALL" in a blue sans-serif font. Below the logo is a large green speech bubble shape. Inside the speech bubble, there are three white input fields: the top one is labeled "Name", the middle one is labeled "Password", and the bottom one is a blue button labeled "JOIN CALL".

Approve the use of microphone and camera by clicking "OK"

The image shows a browser permission dialog box. The title bar reads "advanced.vmixcall.com vill" with a close button (X) on the right. The dialog contains two items: a microphone icon followed by the text "Använd mikrofonen" and a camera icon followed by the text "Använd kameran". At the bottom of the dialog are two buttons: "Tillåt" (Allow) and "Blockera" (Block).

## Controls that can be used during the call

End Call	End current vMix Call
Show/Hide Chat	Chat function
Mute/Unmute Camera	Turn your camera on/off
Mute/Unmute Microphone	Mute/unmute your microphone
Toggle Screen Sharing	Use this to share your content
Toggle Camera Preview	Hide/show your preview of your camera
Toggle Fullscreen	Switch between fullscreen and window mode
Open Settings	Change camera/microphone, reconnect etc

## Important!!!

- Use vMix Call with your computer connected to the network by cable if possible, not WiFi.
- If you're using a mobile device – please use it in landscape mode.
- Always open Settings and check that correct camera/microphone is in use. Uncheck the boxes (see picture below) and click Reconnect.
- If picture freezes – open Settings and click Reconnect.
